<b>ROTO OPERATOR on CLEAR GLASS MODELS</b> add the letter R at the end of the model number (roto operator comes standard on GBG, decorative glass octagon and elongated venting models)					

**ROTO OPERATOR**

This operating hardware is available as an add on option for all COLONIAL Clear glass venting octagon windows. It must be specified at the time of ordering the window. This option cannot be retrofitted to an existing operating or stationary octagon window.

*Note: Roto Operator hardware comes standard on all Elongated, GBG, Leaded, Etched, Silk Screen, Sandcarved and Glacier Block glass operating windows.*
